We love cruising & yachting

We love villa rentals

We love flying private

Private jet charter is the most flexible way to fly and discover the world. Our luxury travel advisors know how to find the safest charter for your next trip or to tailor your unique private jet journey around the world.

We love special events

The Olympics, the Monaco Grand Prix, Wimbledon, the hottest Broadway show: we have access to the most coveted events and shows around the world and create custom itineraries around them.

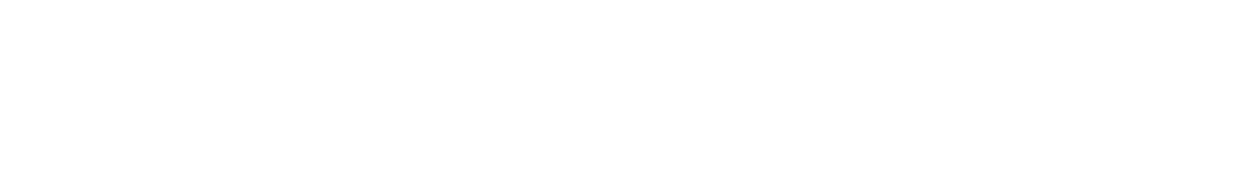

"Shawna and her team planned an outstanding trip for our family. We very much appreciated the quality of the guides they organized for us and would recommend her team to anyone planning a trip."

— Caroline

"It was truly a pleasure working with you and your team. You're all smart, thorough, and friendly."

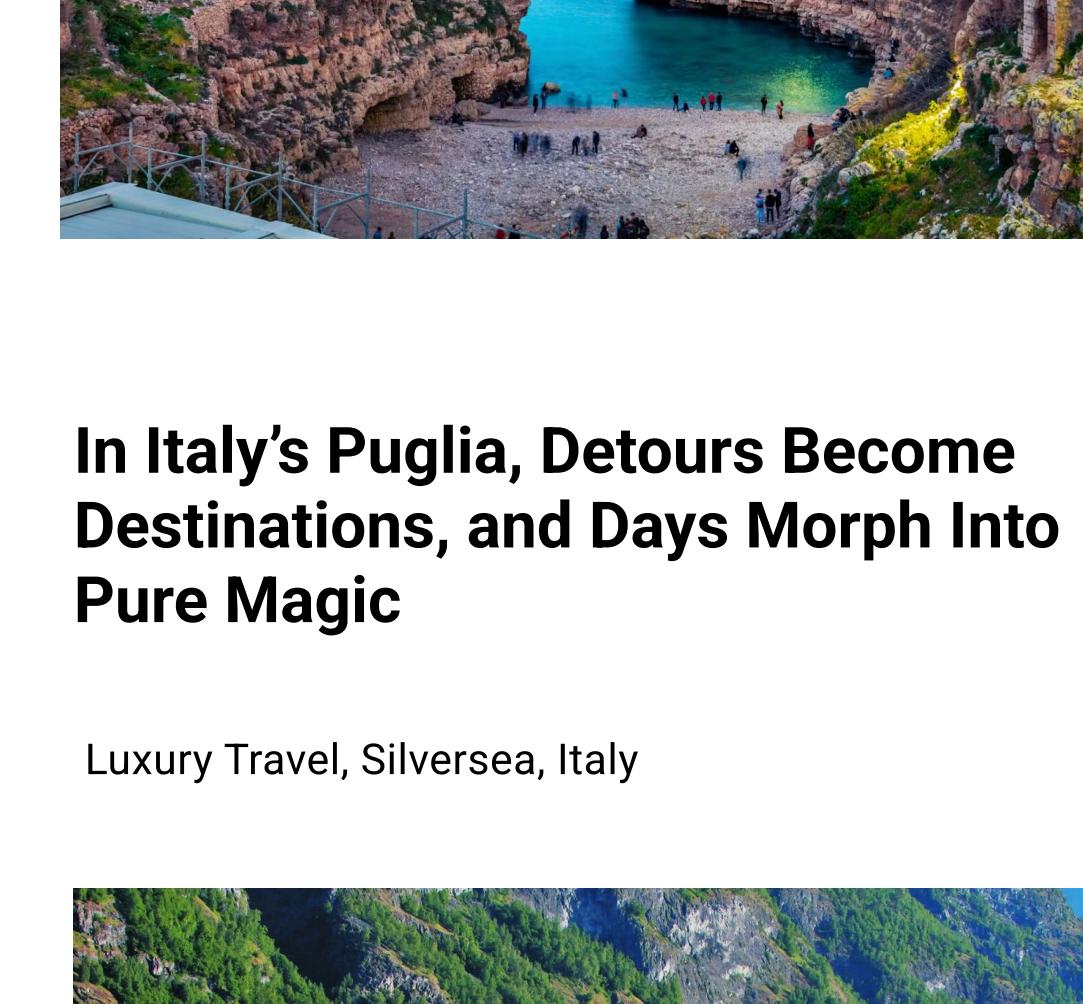

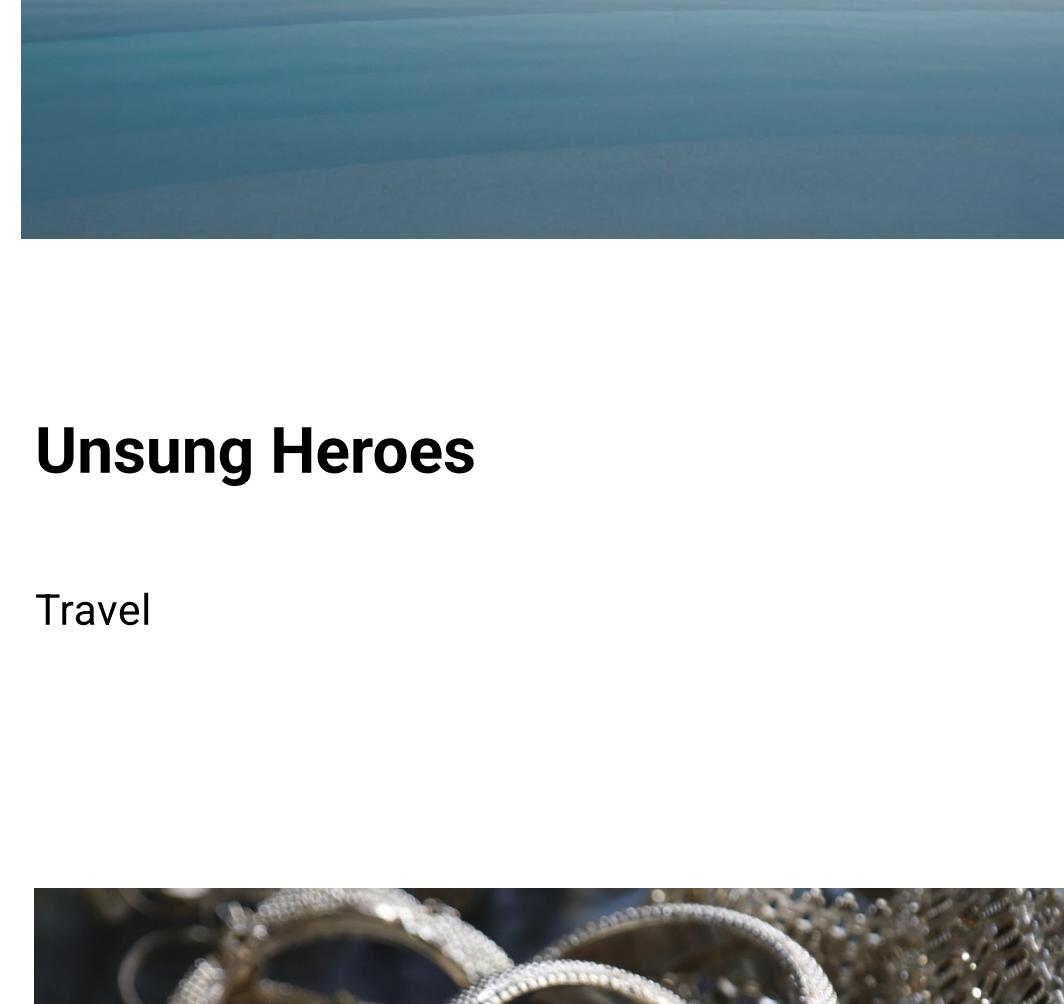

— Mike

We believe in travel protection

After more than 20 years creating complex itineraries around the world, we know the value of trip insurance. Things happen, plans change, flights cancel. Although no amount of money can make up for your loss, it is important to understand how travel protection can give you peace of mind. Your travel advisor is always happy to assist and explain how trip insurance can protect your investment and how Medjet private medical evacuation transportation works.
